WHY WATSON?

TO BE THE BEST YOU MUST WORK WITH THE BEST

Our products come with a lifetime guarantee and we will be alongside you every step of the way.

QUALITY

The best, by the best. Since the start, our focus has been on manufacturing and supplying heavy-duty machines, bars and accessories that feel amazing to use and are virtually indestructible. Quality is put above all else. As we've grown since starting in 1998, this has become our trademark. The fact that the top trainers and athletes all over the world choose us is the perfect testament to our claims.

BRITISH MADE

Proudly British with traditional values. All our products are manufactured in our factories in Frome, England using British steel. We design and manufacture every component in house which not only ensures the highest standards, it also gives us complete control and reduces costs. This ensures you get incredible value and short lead times even on very large orders.

INNOVATION

We're proud in the knowledge we have successfully brought various new products to the market. Many of our innovations in the forms of bars, benches, machines and dumbbells can be seen in gyms all over the world.

IRRESISTIBLE

We manufacture products that deliver exceptional benefits and value to our customers, many of which can't be found anywhere else.

CUSTOMER CARE

We guarantee to be there if you ever need us. Our friendly, respectful, and dedicated customer care team is on hand and ready to help you with any issues you might encounter, with the highest level of support.

DESIGN

We have great relationships with some the world's highest regarded coaches, trainers and athletes. We make full use of this by listening to what they say regarding functionality and biomechanics of products.

A WORD FROM SIMON WATSON, THE FOUNDER OF WATSON GYM EQUIPMENT ...

"Since a young age, there were two activities I remember being very passionate about; building things and weight training. So in 1998, from a tiny garage and with no big plans, I started doing something that I loved, building gym equipment."

That same passion is still with me now, only in a more focused and structured form, along with a relentless obsession for Watson Gym Equipment to lead the world in the innovation and manufacture of specialist strength equipment."

In 2021 Watson Gym Equipment were honoured with the Queen's Award for Enterprise in the category of International Trade.

This is something we are immensely proud of, and want to thank all of our team and customers who have supported us every step of the way.

THE HISTORY OF

1998

- We start making benches from a tiny garage in Chippenham, UK.

2001

- Moved into a "proper" industrial unit in Westbury and employed a welder.

2003

- We opened a small commercial gym next to our manufacturing unit.

2008

- Bought a 2500 sq ft unit in Frome.

2014

- Launched Animal Leg Press.
- Westside Barbell partnership.

2016

- Bought land to build new bespoke manufacturing facility.

2017

- Completed new HQ build.
- Purchased Mazak laser.
- Reserved another plot of land.

2020

- Opened Watson steel processing facility.
- Began building 3rd Watson factory.
- Launched Watson Pro Olympic Weight Plates.

2009

- Started developing the Watson Pro Dumbbells.

2010

- Consolidation of product range and the launch of the Animal range.

2011

- Invested in our first CNC machines to produce our Dumbbells and other components.

2012

- Bought additional units to separate manufacturing from assembly/offices.

2021

- Launched 3rd factory joined together with Watson Bridge.
- Purchased additional land for further expansion.
- Won the Queens Award for Enterprise in the category of International Trade.

2022

- Huge investment in new machining equipment to improve value for customers and make lead times faster.
- New weight stack system with stainless steel weight stack badges.

2024

- Launched a brand new distributor network to make it quicker, more cost-effective and easier to order all around the world.

2026

- Purchase of new 70,000 sq ft additional facility for 2 year expansion plans.

WATSON.

WHAT OUR CUSTOMERS SAY ABOUT US...

CHRIS BUMSTEAD

"Beautiful dumbbells. Honestly, these look so nice. ... Fancy. Boujee. ... Aesthetic.
I'm pretty sure these are, like, the best dumbbells you can buy. ... Honestly, these look so nice."

DAVID BAUTISTA

"We have these dumbbells from the UK from a company called Watson. They designed them with this Drax logo for me which are really special!"

CHARLES POLIQUIN

"I first met Charles in 2008, when he helped me design our now world-famous Watson Dumbbells. Charles is regarded as the greatest and most successful strength coach of all time. To me, he was an incredible mentor and friend whose support, advice, and vast knowledge really helped me grow the Watson brand."

JLO

"I absolutely LOVE the look and feel of my Watson equipment!"

BEN PAKULSKI

"Watson has by far the most innovative and well designed line of training bars anywhere in the world. The designs are outstanding for maximising muscular development, as well as adding strategic variety to your training regiment."

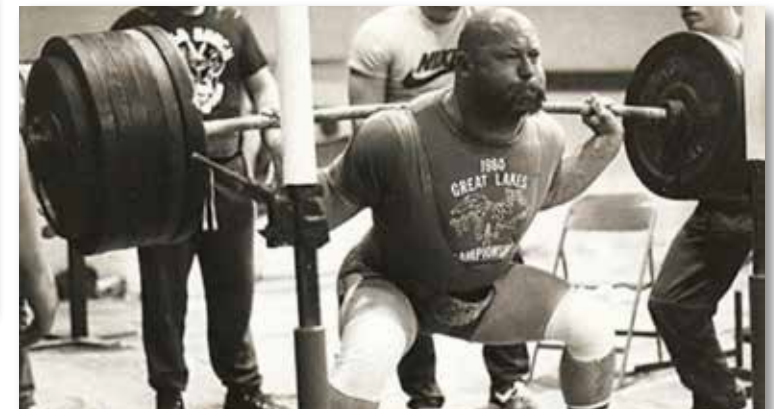

BEN PATRICK
(Kneesovertoesguy)

"Even after all these years, my Watson stuff is like brand new! Now my studio is world class, you did a perfect job!"

We are rated 4.9 on Google

LOUIE SIMMONS

(Founder of Westside Barbell)

"Equipment quality, strength, durability and performance – requirements [for which] we have researched and determined that Watson Gym Equipment will exceed our expectations."

THE WATSON SERVICE

With Watson, you know you're getting a quality product with the capabilities to keep up as you up the weights, up the reps and up your strength. When you order with us, we can tailor your setup to be exactly how you imagined it; from the initial floor plans, to stitch colours, to product training for you and your team, if needed.

CARE

We can advise you on the best way to get the most out of your equipment for years to come. Our care and service schedule is designed to extend the life of your kit and keep everything running smoothly.

SUPPORT

Our experienced team is here to help support you in planning your facility, offering expert advice on the best use of space, zoning and flow for your gym.

WARRANTIES

Our equipment comes with comprehensive warranties to give you piece of mind that you're covered should anything happen to your equipment. We take great pride in looking after our customers, every step of the way.

INSTALLATION

We have a specialised UK installation team, as well as a network of international companies to help you get your kit to where it needs to be, with care and precision.

TRAINING

To help you get the most from your equipment, we offer training for gyms as needed. Our goal is to ensure everyone can use our kit safely, effectively, and with complete confidence.

FINANCE

If you're considering financing options, just speak with our sales team. They'll work with you to find the best solution, making the process of purchasing gym equipment as straightforward as possible.

QUESTIONS

Our After-Sales team is always at the end of the phone, or email, ready to assist with any questions or support you may need after installation.

Introducing our

ANIMAL & ORIGINAL

Product ranges

Since the beginning, Watson Gym Equipment has carved out its own niche – designing and manufacturing heavy-duty, simple-to-use machines with great biomechanics and elegant design. This has always been, and will always remain, at the core of our Watson Original line.

In 2008, the owner of Spartan Performance UK approached us looking for our Power Rack Cages – but he didn't want the standard model. He wanted them 'beefed up' with thicker steel, innovative add-ons like band pegs (rare at the time), multiple chin-up bars, and super-close hole spacing. Changes that would turn a great product into the perfect product. The result? Our Animal Cages, which were an instant hit.

Since then, we have taken many other Watson Original products and given them the 'Animal' treatment. Products from the Watson Animal range represent the pinnacle of design and biomechanics. Our product line has consistently expanded over the years. With increased adjustability, greater weight capacity, additional ISO lateral movements, and an overall commitment to excellence.

All backed by our rock-solid Watson lifetime guarantee.

PLATE LOADED

Our Plate Loaded Strength Machines redefine the standards of performance, providing a dynamic and versatile platform for users of all fitness levels. Each machine is a testament to precision engineering, featuring top-grade materials and cutting-edge technology to ensure durability and smooth, fluid movements.

RACKS & PLATFORMS

Our versatile racks and platforms are ideal for compound movements like pull-ups, bench press, deadlifts, and squats. Built with super heavy-duty box sections and platework, they give you the confidence to lift as much weight as you need. Plus, the option to add your custom logo adds the perfect personalised touch to your facility.

2 BAR STORAGE

Max weight: 975kg

FUNCTIONAL RIGS

Unlimited options, any size, supreme quality.
For over 20 years, we've been engineering rigs
to withstand the most demanding conditions.
Our state-of-the-art tube laser allows us to cut
intricately, quickly and effortlessly - so you're
never limited by off-the-shelf solutions.

DUMBBELLS

THE WORLD'S LEADING DUMBBELLS

COMPACT – UNBREAKABLE – CUSTOMISABLE

UNBREAKABLE DESIGN

Most dumbbells don't last long in a busy gym – they loosen, become wobbly, lose chunks of rubber, or end up with bent handles. We know dumbbells get dropped and abused, so we designed ours to withstand it all.

Our dumbbells are virtually indestructible. CNC-machined from solid stainless steel rather than cast, they're many times stronger, perfectly accurate, and far more compact than any other dumbbell on the market. Being stainless steel means no zinc, nickel, or chrome finishes to chip, flake, or peel – ever.

THE WATSON DUMBBELL HANDLE

We let you choose a grip diameter tailored to you and your clients' needs. Our custom-designed knurling pattern and depth strike the perfect balance between a grip that feels solid, and a grip that feels comfortable.

REVOLVING HANDLES

The benefits of training with thick handles are now well-known, but we go further. Our 50mm diameter handles revolve on ultra-smooth twin roller bearings. During rotational exercises, like bicep curls, the revolving handles prevent the inertia of the dumbbell from placing stress on wrists and elbows, effectively 'disconnecting' your joints from unwanted rotational forces.

CUSTOMISED ENDPLATES

Our specialist team of designers and AutoCad engineers transform your company's branding into a unique endplate design schematic. Using computer-controlled laser cutting and etching, we turn this schematic into the most eye-catching, bespoke branded dumbbells you've ever seen.

KETTLEBELLS

THE BEST-LOOKING KETTLEBELLS!

WORLD-FAMOUS

For the past two years, we've been manufacturing our Pro Kettlebells. Engineered using the same process as our world-renowned Pro Dumbbells, they're CNC-machined from solid stainless steel billets. Available with your custom branding or our signature Watson finish.

FRESH DESIGN

Tired of standard black cast iron or bright plastic kettlebells that don't match your premium facility? We've redefined the look. Our sleek stainless steel design complements high-end spaces you've invested time, energy, and money into creating.

CUSTOMISED

Whether for a commercial gym, hotel, personal training studio, or home gym, our kettlebells are built to stand out. Solid stainless steel won't corrode or discolour over time, maintaining a premium finish for years to come.

Customisable endplates allow you to showcase your branding, perfectly matching our Pro Dumbbells and Pro Barbells for a cohesive, professional look across your facility.

NOT JUST GREAT TO LOOK AT...

Our Pro Kettlebells don't just stand out visually - they deliver on performance. Compact, comfortable to use, and fully calibrated, they're designed for serious training. Available in weights ranging from 8kg (18lbs) to 30kg (66lbs), you can select the perfect range for your facility.

OPTIONAL REVOLVING HANDLES

Experience a truly unique training feel. The thicker, revolving handles increase muscle fibre recruitment, unlocking greater strength development. Combined with a lower centre of mass than a traditional kettlebell, this design alters the strength curve.

BARBELLS

WORLD'S BEST BARBELL SYSTEM

WE DIDN'T JUST STOP AT MAKING THE WORLD'S BEST DUMBBELLS - WE'VE ENGINEERED THE FINEST BARBELLS AVAILABLE.

CALIBRATED PRECISION

Every lift is exactly what it says, just like our Pro Dumbbells. Finished with precision knurling for the perfect balance of grip and comfort, so you can train with total confidence.

FULLY CUSTOMISED

Tailor your set to your exact requirements. Each barbell can be customised with your logo, helping your facility stand out and maintain a cohesive, premium look.

SUITABLE FOR ALL

30mm thick bars, ideal for both men and women. CNC-machined from solid stainless steel using the same Mazak lathes as our Pro Dumbbells.

Choose your preferred bar type: Straight or EZ.

LIFETIME GUARANTEE!

If you break them (you won't), we'll fix them.

 - 20lbs - 55lbs in 5lbs increments
-
- 10kg - 45kg in 5 kilo increments
 - 20lbs - 90lbs in 10lbs increments

OLYMPIC WEIGHT PLATES

BUILT FOR MORE THAN JUST LOOKS

When we set out to create our Olympic Weight Plates, we knew great aesthetics alone would never be enough. To sit alongside our world-renowned Watson Pro Dumbbells, they had to deliver on every level – precision, durability, and design.

These plates are incredibly accurate in both finish and weight, thinner than standard plates, fully customisable with your logo, and built to look just as impressive in decades to come.

UNBREAKABLE DESIGN

Many weight plates are made from mild steel with zinc or nickel coatings – looking great at first, but quickly wearing, chipping, or peeling with use.

We took a different approach. Drawing on over 15 years of experience, we chose the only material that meets our standards: solid stainless steel. No coatings, no compromises, just pure durability that won't degrade over time. Anything less wouldn't be right.

ENGINEERED TO LEAD

So how do we produce plates of this quality so efficiently?

We operate at scale – processing over 80,000kg of stainless steel every month – allowing us to source directly from the mill at the best possible prices. Combined with significant investment in state-of-the-art CNC machining centres dedicated solely to these plates, we maintain complete control over every stage of production. No outsourcing. No shortcuts.

THE RESULT

Olympic Weight Plates that set a new standard – precision-engineered, built to last, and designed to stand out. Quite simply, the finest weight plates ever made.

WEIGHT STACK GUARDS

Guards are a great way to enhance brand awareness while giving your equipment an extra aesthetic touch. They can be personalised with your logo or supplied with the Watson logo, with options for outer guarding or both inner and outer guarding. Beyond style, they also provide an important safety feature for certain facilities.

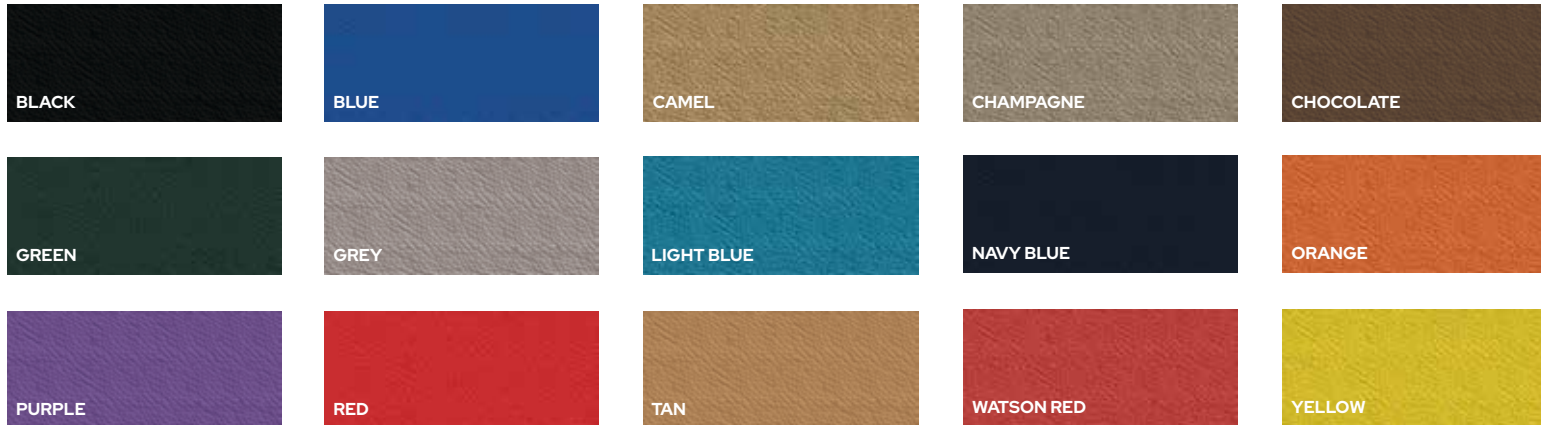

UPHOLSTERY

YOUR CREATIVITY AND IMAGINATION IS THE ONLY LIMIT

Do all benches have to be black? Absolutely not! Of course, we can make a classic black bench – but why stop there? Add your logo, choose a quilted finish, or mix surface and stitching colours for a truly unique, eye-catching look.

VINYL

REAL LEATHER (additional charges apply)

STITCHING & EMBROIDERY

Our stitching options come in a variety of colours and options - including 2-tone stitches.

Using your logo, the upholstery can be printed or embroidered to match your specific colours, helping to further reinforce your branding in your gym environment.

Want to stand out from the crowd? Order our premium Bentley, Lambo or Aston stitching.

OUR GUARANTEE

"IT'S VERY SIMPLE, IF IT BREAKS WE WILL FIX IT."

"I pride myself on offering you the very best guarantee on the market. I personally stand behind every one of my Watson products.

Here's what I promise you with every product you buy from Watson Gym Equipment:

We guarantee 5 YEARS warranty
ON ALL CABLES and other
consumables.

* SIX MONTHS on upholstery.

We guarantee 5 YEARS warranty
ON ALL MOVING PARTS.

We guarantee LIFETIME warranty
ON ALL FRAMEWORK.

I don't care how much it's been misused or what abuse you gave it to make it break, I promise if it breaks, we will fix it.

I also guarantee you the very best customer service on which I have built the business.

We guarantee your privacy and we will never pass your information onto any third party.

If you have any questions or queries regarding the products or service you have received from Watson Gym Equipment, please contact us."

Simon Watson

IN WATSON WE TRUST

If you experience any issues or have any concerns with any part of your kit, please don't hesitate to reach out to a member of our team. We're here to help and will be more than happy to assist you with anything you need - whether it's troubleshooting, replacements, or simply answering a question. Your satisfaction is important to us, and we're committed to making sure everything works as it should.

We don't react to current market trends. Instead, we collaborate with the leading strength and conditioning figures to develop forward-thinking solutions that build quality muscle while minimising the risk of injury.
